## **BENEFITS**

Compensation benefits are paid by insurance carriers for compensable injuries. Temporary disability benefits are paid every 2 weeks.

*Temporary Total Disability* - Total disability of more than 3 working days. If disability lasts for more than 14 calendar days, compensation shall be paid from the day left work. Compensation is payable at the rate of 66 2/3% average weekly wage in effect at the time the injury/exposure not to exceed the statutory maximum. A loss of fringe benefits specifically enumerated in the statute should be included in the calculation of the average weekly wage.

*Permanent Partial Disability* - Payable where there is residual impairment, based upon the part of the body affected, or on the extent of medical impairment.

*Facial or Bodily Disfigurement* - Serious, permanent disfigurement about the head, face or parts of the body normally exposed to public view. Benefits are not to exceed \$2000.

*Medical Benefits* - Current medical benefits for medical, hospital and surgical supplies, prescriptions, crutches, apparatus and vocational rehabilitation.

*Temporary Partial Disability* - Temporary partial disability of more than 3 working days. Compensation is payable at the rate of 66 2/3% of the difference between the employee's average weekly wage at the time of injury and said employee's average weekly wage during the continuance of the temporary partial disability not to exceed a maximum of 91% of the state average weekly wage per week.

*MMI* - Maximum Medical Improvement means a point in time where any medically determinable physical or mental impairment as a result of injury has become stable and when no further treatment is reasonably expected to improve the condition.
